

## HIGH POWER SPLITTERS / COMBINERS 136 - 2200MHz • PS Series

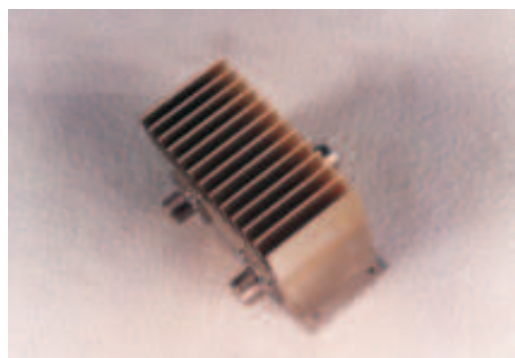

Fiplex PS Series of power splitters / combiners are passive devices designed in a Wilkinson configuration.

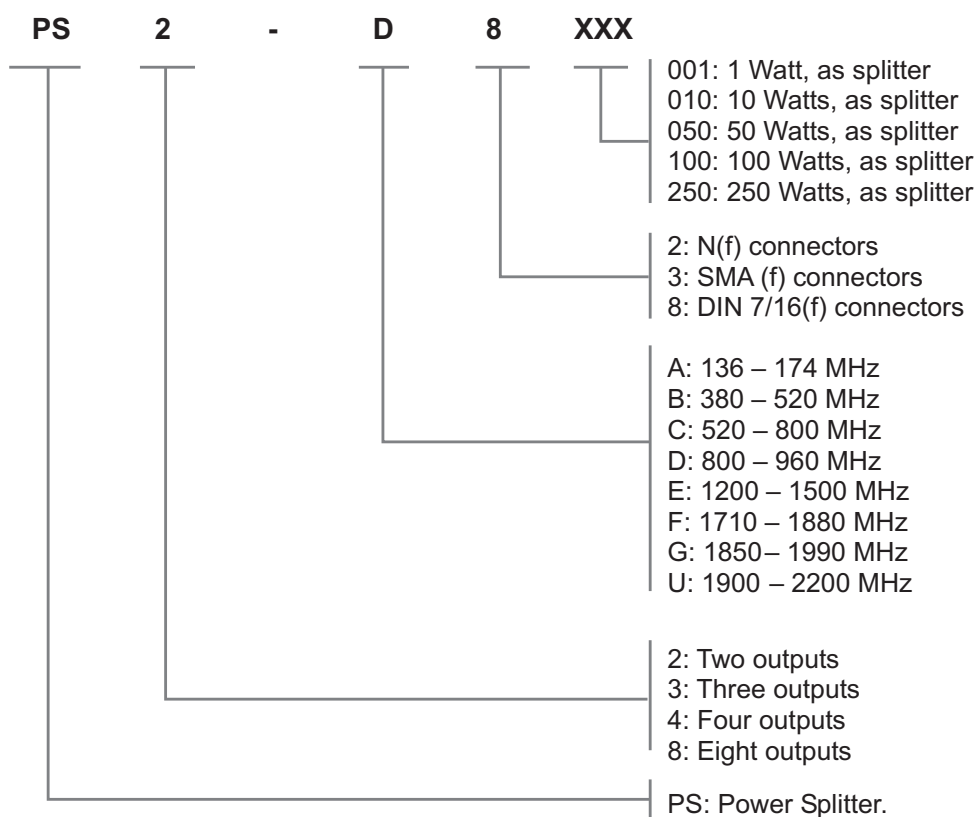

Due to the Wilkinson configuration, this devices have a low VSWR value in all ports (less than 1.3:1, based on 50 ohms characteristic impedance)

From 2 to 8 output ports models available as standard, others available upon request.

Power up to 250W (as splitter) as standard, other values available upon request.

PS2-D2010

Factory reserves the right to change specifications without prior notice.
